

# HeaderFooterSection.GetPicture()

## Description

Returns the [HeaderFooterPicture](#) that has been embedded in this section of the spreadsheet's header or footer, or null if there is no picture.

**C#**

```
public HeaderFooterPicture GetPicture()
```

**vb.net**

```
Public Function GetPicture() As HeaderFooterPicture
```

## Returns

The picture that has been embedded in the footer or header as a [HeaderFooterPicture](#) object

## Examples

**C#**

```
HeaderFooterPicture pic = header.GetPicture();
```

**vb.net**

```
Dim pic As HeaderFooterPicture = header.GetPicture()
```
