HeaderFooterSection.GetPicture()

Description

Returns the HeaderFooterPicture that has been embedded in this section of the spreadsheet's header or footer, or null if there is no picture.

C#

```csharp
public HeaderFooterPicture GetPicture()
```

vb.net

```vbnet
Public Function GetPicture() As HeaderFooterPicture
```

Returns

The picture that has been embedded in the footer or header as a HeaderFooterPicture object

Examples

C#

```csharp
HeaderFooterPicture pic = header.GetPicture();
```

vb.net

```vbnet
Dim pic As HeaderFooterPicture = header.GetPicture()
```
