PageSetup.FitToPagesWide

Description

Sets or returns FitToPagesWide. This is set to 1 by default. The valid range of values is 0 through 32767. A value of 0 means "auto".

(This is not supported for charts.)

C#

```csharp
public int FitToPagesWide{ get; set; }
```

vb.net

```vbnet
Public Property FitToPagesWide() As Integer
```

Remarks

Note: The pair of properties FitToPagesWide and FitToPagesTall, and Zoom are mutually exclusive.

Examples

C#

```csharp
        //--- Get FitToPagesWide
        bool pagesWide = ps.FitToPagesWide;

        //--- Set FitToPagesWide
        ps.FitToPagesWide = 2;
```

vb.net

```vbnet
        '--- Get FitToPagesWide
        Dim pagesWide As Boolean = ps.FitToPagesWide

        '--- Set FitToPagesWide
        ps.FitToPagesWide = 2
```
