

Area.Dimensions

Description

Sets or returns the dimensions of the area in the format "A1:B7".

C#

```
public System.String Dimensions{ get; }
```

vb.net

```
Public ReadOnly Property Dimensions() As String
```

Examples

C#

```
//--- Get Dimensions  
string areaDimensions = a.Dimensions;  
  
//--- Set Dimensions  
a.Dimensions = "A1:B7";
```

vb.net

```
'--- Get Dimensions  
Dim areaDimensions As String = a.Dimensions  
  
'--- Set Dimensions  
a.Dimensions = "A1:B7"
```
