

Charts.CreateChart(ChartType, Anchor)

Description

Creates a new, blank chart of the specified type.

C#

```
public Chart CreateChart(ChartType type, Anchor cornerTopLeft)
```

vb.net

```
Public Function CreateChart(ByVal type As ChartType, ByVal cornerTopLeft As Anchor) As Chart
```

Parameters

type

The type of chart to create.

cornerTopLeft

An [Anchor](#) representing the top left corner of the chart's position.

Returns

a new Chart.
