DocumentProperties.Comments

Description

Sets or returns the value of the Comments field in a presentation's Properties sheet. Comments can used to search for a PowerPoint file.

C#

```
<p> public System.String Comments{ get; set; }</p>
```

vb.net

```
<p>Public Property Comments() As String</p>
```

Examples

C#

```
//--- Get Comments
        string comments = docProps.Comments;

        //--- Set Comments
        docProps.Comments = "Generated by PowerPointWriter";
```

vb.net

```
'--- Get Comments
        Dim comments As String = docProps.Comments

        '--- Set Comments
        docProps.Comments = "Generated by PowerPointWriter"
```
