

CopyPasteProperties.CopyMergedCells

Description

A boolean value indicating whether or not to copy merged cells.

C#

```
public boolean CopyMergedCells{ get; set; }
```

vb.net

```
Public Property CopyMergedCells() As Boolean
```

Remarks

If this value is set to false, any content inside merged cells in the source worksheet will be ignored.

Examples

C#

```
//--- Is the property object set to copy merged cells?  
boolean willCopyMergedCells = copyPasteProperties.CopyMergedCells;  
  
//--- Set the property object to copy cell values.  
copyPasteProperties.CopyMergedCells = true;
```

vb.net

```
'--- Is the property object set to copy merged cells?  
Dim willCopyMergedCells As Boolean = copyPasteProperties.CopyMergedCells  
  
'--- Set the property object to copy merged cells.  
copyPasteProperties.CopyMergedCells = True
```
