

Trendlines.GetEnumerator()

Description

Returns an IEnumerator for the Trendlines in a Series

C#

```
public IEnumerator GetEnumerator()
```

vb.net

```
Public Function GetEnumerator As IEnumerator
```

Returns

An enumerator for the Trendlines in a Series as a System.Collections.IEnumerator

Examples

C#

```
IEnumerator enumerator = series.Trendlines.GetEnumerator();
```

vb.net

```
Dim enumerator as IEnumerator = series.Trendlines.GetEnumerator()
```
