

# Groups.Remove(Group)

## Description

Removes the specified [Group](#) object from the collection.

**C#**

```
public void Remove(Group group)
```

**vb.net**

```
Public Sub Remove(ByVal group As Group)
```

## Parameters

### *group*

The Group object to remove.

## Exceptions

### ***ArgumentNullException***

Calling `Groups.Remove(null)` will throw an `ArgumentNullException`.
