

# Charts.CreateChart(ChartType, Anchor)

## Description

Creates a new, blank chart of the specified type.

**C#**

```
public Chart CreateChart(ChartType type, Anchor cornerTopLeft)
```

**vb.net**

```
Public Function CreateChart(ByVal type As ChartType, ByVal cornerTopLeft As Anchor) As Chart
```

## Parameters

### ***type***

The type of chart to create.

### ***cornerTopLeft***

An [Anchor](#) representing the top left corner of the chart's position.

## Returns

a new Chart.
