

Font.Size

Description

Sets or returns the font size, in points.

C#

```
public double Size{ get; set; }
```

vb.net

```
Public Property Size() As Double
```

Examples

C#

```
//--- Get Size
    double fontSize = fnt.Size;

    //--- Set Size
    fnt.Size = 12;
```

vb.net

```
'--- Get Size
    Dim fontSize As Double = fnt.Size

    '--- Set Size
    fnt.Size = 12
```
