Cell.Comment

Description

Returns a Comment object representing a note attached to the cell, separate from other cell content. If a comment is not associated with the specified cell, a new comment will be created and returned.

C#

```csharp
public Comment Comment{ get; }
```

vb.net

```vbnet
Public ReadOnly Property Comment() As Comment
```

Examples

C#

```csharp
Comment cmt = cellA1.Comment;
```

vb.net

```vbnet
Dim cmt As Comment = cellA1.Comment
```
