

Worksheet.InsertColumn(Int32)

Description

Inserts a column in the worksheet to the left of the specified column.

C#

```
public void InsertColumn(int columnNumber)
```

vb.net

```
Public Sub InsertColumn(ByVal columnNumber As Integer)
```

Parameters

columnNumber

The 0-based number of the column to insert.

Examples

C#

```
ws.InsertColumn(3);
```

vb.net

```
ws.InsertColumn(3)
```
