

Element.InsertListAfter(Boolean)

Description

Creates and returns an empty [List](#) at the end of this Element. By passing a boolean, it can be a numbered list (true) or a bulleted list (false).

C#

```
public virtual List InsertListAfter(boolean numbered)
```

vb.net

```
Public Overridable Function InsertListAfter(ByVal numbered As Boolean) As List
```

Parameters

numbered

Returns

A List object representing the newly created empty list.

Examples

C#

```
List lst = e.InsertListAfter(true);
```

vb.net

```
Dim lst As List = e.InsertListAfter(True)
```
