

Style.ColumnInsertBehavior

Description

A [ColumnInsertBehavior](#) value determines what style will be applied to the inserted columns.

C#

```
public sealed class ColumnInsertBehavior : TypesafeEnum
```

vb.net

```
Public NotInheritable Class ColumnInsertBehavior  
    Inherits TypesafeEnum
```

Values

Name	Description
Ignore	The default style will be applied to the new columns.
Left	The style of the new columns will match the style of the column to their left
Right	The style of the new columns will match the style of the column to their right
