

# CompatibilitySettings.SwapBorders

## Description

Sets or returns a `boolean` that represents whether or not Word will swap left and right borders on odd facing pages in this document.

**C#**

```
public boolean SwapBorders\{ get; set; \}
```

**vb.net**

```
Public Property SwapBorders() As Boolean
```

## Remarks

MS Word equivalent: Tools menu > Options... > Compatibility tab > Compatibility options for [filename].doc section > Options > Don't balance columns for Continuous section starts

## Examples

**C#**

```
//--- Return SwapBorders
bool swapBorders = cs.SwapBorders;

//--- Set SwapBorders
cs.SwapBorders = true;
```

**vb.net**

```
'--- Return SwapBorders
Dim swapBorders As Boolean = cs.SwapBorders

'--- Set SupressTopSpacing
cs.SwapBorders = True
```
