

Area.RowCount

Description

Sets or returns the number of rows in the area.

C#

```
public int RowCount{ get; }
```

vb.net

```
Public ReadOnly Property RowCount() As Integer
```

Examples

C#

```
//--- Get FirstCount  
int rows = a.RowCount;  
  
//--- Set FirstCount  
a.RowCount = 7;
```

vb.net

```
'--- Get FirstCount  
Dim rows As Integer = a.RowCount  
  
'--- Set FirstCount  
a.RowCount = 7
```
