# Worksheet.AutoFilter

**Introduced in build 8.3**

## Description

Returns an AutoFilter object representing the filter that is applied to a selected area of cells in a worksheet

> **C#**
>
> ```csharp
> public AutoFilter AutoFilter{ get; }
> ```

> **vb.net**
>
> ```vbnet
> Public ReadOnly Property AutoFilter() As AutoFilter
> ```

## Examples

> **C#**
>
> ```csharp
> AutoFilter autoFilter = ws.AutoFilter;
> ```

> **vb.net**
>
> ```vbnet
> Dim autoFilter As AutoFilter = ws.AutoFilter
> ```
