

Worksheet.SummaryRows

Description

When grouping rows, [SummaryRows](#) determines where the summary rows for the groups are located. By default the summary rows are located below the groupings.

C#

```
<p> public SummaryRowsLocation SummaryRows{ get; set; }</p>
```

vb.net

```
<p>Public Property SummaryRows() As SummaryRowsLocation</p>
```

Examples

C#

```
//--- Get SummaryRows  
Worksheet.SummaryRowsLocation location = ws.SummaryRows;  
  
//--- Set SummaryRows  
ws.SummaryRows = Worksheet.SummaryLocation.Above;
```

vb.net

```
'--- Get SummaryRows  
Dim location As Worksheet.SummaryRowsLocation = ws.SummaryRows  
  
'--- Set SummaryRows  
ws.SummaryRows = Worksheet.SummaryLocation.Above
```
