

# PageSetup.PrintOrder

## Description

Sets or returns the order in which data is numbered and printed when it does not fit on one page. The default order is down-then-over.

*(This is not supported for charts.)*

### C#

```
<p> public PagePrintOrder PrintOrder{ get; set; }</p>
```

### vb.net

```
<p>Public Property PrintOrder() As PagePrintOrder</p>
```

## Examples

### C#

```
//--- Get PrintOrder
PageSetup.PagePrintOrder order = ps.PrintOrder;

//--- Set PrintOrder
ps.PrintOrder = PageSetup.PagePrintOrder.OverThenDown;
```

### vb.net

```
'--- Get PrintOrder
Dim order As PageSetup.PagePrintOrder = ps.PrintOrder

'--- Set PrintOrder
ps.PrintOrder = PageSetup.PagePrintOrder.OverThenDown
```
