

PageSetup.CenterHorizontally

Description

Sets or returns whether or not the data of the worksheet is centered horizontally within the margins. This is set to false by default.

(This is not supported for charts.)

C#

```
<p> public boolean CenterHorizontally{ get; set; }</p>
```

vb.net

```
<p>Public Property CenterHorizontally() As Boolean</p>
```

Examples

C#

```
//--- Get CenterHorizontally
bool centerHoriz = ps.CenterHorizontally

//--- Set CenterHorizontally
ps.CenterHorizontally = true;
```

vb.net

```
'--- Get CenterHorizontally
Dim centerHoriz As Boolean = ps.CenterHorizontally

'--- Set CenterHorizontally
ps.CenterHorizontally = True
```
