

Style.IndentLevel

Description

Sets or returns level of indentation of the contents within the cell.

C#

```
<p> public int IndentLevel{ get; set; }</p>
```

vb.net

```
<p>Public Property IndentLevel() As Integer</p>
```

Examples

C#

```
//--- Get IndentLevel
    int indentLevel = style.IndentLevel;

    //--- Set IndentLevel
    style.IndentLevel= 4;
```

vb.net

```
'--- Get IndentLevel
    Dim indentLevel As Integer = style.IndentLevel

    '--- Set IndentLevel
    style.IndentLevel = 2
```
