

# PageSetup.CenterHorizontally

## Description

Sets or returns whether or not the data of the worksheet is centered horizontally within the margins. This is set to false by default.

*(This is not supported for charts.)*

### C#

```
<p> public boolean CenterHorizontally{ get; set; }</p>
```

### vb.net

```
<p>Public Property CenterHorizontally() As Boolean</p>
```

## Examples

### C#

```
//--- Get CenterHorizontally
bool centerHoriz = ps.CenterHorizontally

//--- Set CenterHorizontally
ps.CenterHorizontally = true;
```

### vb.net

```
'--- Get CenterHorizontally
Dim centerHoriz As Boolean = ps.CenterHorizontally

'--- Set CenterHorizontally
ps.CenterHorizontally = True
```

## Examples
