

Worksheet.ShowGridlines

Description

Sets or returns whether gridlines should be shown in the worksheet. Gridlines are shown by default.

C#

```
<p> public boolean ShowGridlines{ get; set; }</p>
```

vb.net

```
<p>Public Property ShowGridlines() As Boolean</p>
```

Examples

C#

```
//--- Get ShowGridlines
    bool showGrid = ws.ShowGridlines;

    //--- Set ShowGridlines
    ws.ShowGridlines = false;
```

vb.net

```
'--- Get ShowGridlines
    Dim showGrid As Boolean = ws.ShowGridlines

    '--- Set ShowGridlines
    ws.ShowGridlines = False
```
