

CompatibilitySettings.SwapBorders

Description

Sets or returns a boolean that represents whether or not Word will swap left and right borders on odd facing pages in this document.

C#

```
public boolean SwapBorders{\ get; set; \}
```

vb.net

```
Public Property SwapBorders() As Boolean
```

Remarks

MS Word equivalent: Tools menu > Options... > Compatibility tab > Compatibility options for [filename].doc section > Options > Don't balance columns for Continuous section starts

Examples

C#

```
//--- Return SwapBorders  
bool swapBorders = cs.SwapBorders;  
  
//--- Set SwapBorders  
cs.SwapBorders = true;
```

vb.net

```
'--- Return SwapBorders  
Dim swapBorders As Boolean = cs.SwapBorders  
  
'--- Set SwapBorders  
cs.SwapBorders = True
```
