

Worksheet.GridlinesColor

Description

Sets or returns a [Color](#) object representing the color of the gridlines in the worksheet.

C#

```
<p> public Color GridlinesColor{ get; set; }</p>
```

vb.net

```
<p>Public Property GridlinesColor() As Color</p>
```

Examples

C#

```
//--- Get GridlinesColor
    Color gridColor = ws.GridlinesColor;

    //--- Set GridlinesColor
    ws.GridlinesColor = wb.Palette.GetClosestColor(System.Drawing.Color.Blue);
```

vb.net

```
'--- Get GridlinesColor
    Dim gridColor As Color = ws.GridlinesColor

    '--- Set GridlinesColor
    ws.GridlinesColor = wb.Palette.GetClosestColor(System.Drawing.Color.Blue)
```
