Table.AddRows(Int32)

Description

Adds a specified number of rows to the vertical end of the table.

C#

```
public void AddRows(int numRows)
```

vb.net

```
Public Sub AddRows(ByVal numRows As Integer)
```

Parameters

numRows

The number of rows to add to the table.

Examples

C#

```
tbl.AddRows(4);
```

vb.net

```
tbl.AddRows(4)
```
