

WordApplication.LicenseKey

Description

Sets or returns the license key used for this instance of [WordApplication](#). This property is mainly used for debugging purposes. For managing your license keys, please use the License Key Manager that is installed with OfficeWriter.

C#

```
public System.String LicenseKey{ get; set; }
```

vb.net

```
Public Property LicenseKey() As String
```

Examples

C#

```
//--- Return license key
    string key = oWordApplication.LicenseKey;

    //--- Set license key
    oWordApplication.LicenseKey = "XXXXXX-XXXX-XXXX-XXXXXX";
```

vb.net

```
'--- Return license key
    Dim key As String = oWordApplication.LicenseKey

    '--- Set license key
    oWordApplication.LicenseKey = "XXXXXX-XXXX-XXXX-XXXXXX"
```
