

Position.InsertImage(System.IO.Stream)

Description

Inserts and returns an [InlineImage](#) at the point represented by this Position. The image that is inserted is specified by a [Stream](#) object.

C#

```
public InlineImage InsertImage(System.IO.Stream stream)
```

vb.net

```
Public Function InsertImage(ByVal stream As System.IO.Stream) As InlineImage
```

Parameters

stream

A [Stream](#) object that the image can be read from.

Returns

An [InlineImage](#) object representing the inserted image.

Exceptions

System.Exception

If the stream does not contain a supported image format see [InlineImage.ImageFormat](#) for a list of supported formats.
