

Worksheet.TabColor

Description

Sets or returns the color of the worksheet's sheet name tab. Setting the color to an automatic color will set the color to no color.

C#

```
<p> public Color TabColor{ get; set; }</p>
```

vb.net

```
<p>Public Property TabColor() As Color</p>
```

Examples

C#

```
//--- Set TabColor
ws.TabColor = wb.Palette.GetClosestColor(System.Drawing.Color.Red);

//--- Get TabColor
Color tabClr = ws.TabColor;
```

vb.net

```
'--- Set TabColor
ws.TabColor = wb.Palette.GetClosestColor(System.Drawing.Color.Red)

'--- Get TabColor
Dim tabClr As Color = ws.TabColor
```
