

Worksheet.InsertHorizontalPageBreak(Cell)

Description

Inserts a horizontal page break in the worksheet after the specified cell.

C#

```
public void InsertHorizontalPageBreak(Cell afterCell)
```

vb.net

```
Public Sub InsertHorizontalPageBreak(ByVal afterCell As Cell)
```

Parameters

afterCell

A [Cell](#) object representing the cell at which to insert a horizontal page break.

Examples

C#

```
ws.InsertHorizontalPageBreak(ws.Cells["A25"]);
```

vb.net

```
ws.InsertHorizontalPageBreak(ws.Cells("A25"))
```
