

ItemsToRetain.Value

Introduced in build 8.4

Description

Sets or Returns the current number of items the PivotTable's cache is set to retain.

C#

```
public System.String Values{ get; set; }
```

vb.net

```
Public Property Value() As String
```

Remarks

If the [PivotTableSettings.ItemsToRetain](#) is set to [ItemsToRetain.Max](#), `Value` will return the integer value of the maximum number items the PivotTable cache supports. Use [ItemsToRetain.Max](#) to set the number of items to retain to the maximum that the PivotTable supports.
