

Anchor.OffsetY

Description

Returns the Y offset from the top of the row containing the anchor, as a percentage of row height.

C#

```
public double OffsetY{ get; }
```

vb.net

```
Public ReadOnly Property OffsetY() As Double
```

Remarks

An offset of 100.0 represents an anchor flush with the bottom side of the row.

Examples

C#

```
double y = anc.OffsetY;
```

vb.net

```
Dim y As Double = anc.OffsetY
```
