

PivotTableLayout.LayoutOptions

Introduced in build 9.1

Description

The `LayoutOptions` are used to specify the value of `PivotTableLayout.ReportLayout`.

C#

```
enum LayoutOptions
```

vb.net

```
Enum LayoutOptions
```

Values

| Name | Description |
|---------|---|
| Compact | Compact layout (this is the default when creating a pivot table). |
| Outline | Outline layout. |
| Tabular | Tabular layout. |
