

# Font.Caps

## Description

Sets or returns a `boolean` that represents if a character run has the All caps effect, formatting lowercase text as capital letters and reducing their size. All caps formatting does not affect numbers, punctuation, non-alphabetic characters, or uppercase letters.

**C#**

```
public boolean Caps{ get; set; }
```

**vb.net**

```
Public Property Caps() As Boolean
```

## Remarks

MS Word equivalent: Format menu > Font... > Font tab > Effects section > All caps

## Examples

**C#**

```
//--- Return Caps
bool caps = oFont.Caps;

//--- Set Caps
oFont.Caps = true;
```

**vb.net**

```
'--- Return Caps
Dim caps As Boolean = oFont.Caps

'--- Set Caps
oFont.Caps = True
```
