

DocumentProtection.ProtectionLevel

Description

A [DocumentProtection.ProtectionLevel](#) value specifies what type of editing is allowed in the document.

C#

```
public sealed class ProtectionLevel : TypesafeEnum
```

vb.net

```
Public NotInheritable Class ProtectionLevel  
    Inherits TypesafeEnum
```

Values

Name	Description
Comments	Only comments may be edited.
Forms	Only form fields may be modified.
None	All parts of the document may be modified.
