

WordHyphenSettings.CapitalHyphenation

Description

Sets or returns a `boolean` that represents whether or not Word is allowed to hyphenate words that are capitalized in this document.

C#

```
public boolean CapitalHyphenation{ get; set; }
```

vb.net

```
Public Property CapitalHyphenation() As Boolean
```

Remarks

This option is set to true by default.

MS Word equivalent: Tools menu > Language > Hyphenation... > Hyphenate words in CAPS

Examples

C#

```
//--- Return CapitalHyphenation
bool capitalHyphenation = hyphenSettings.CapitalHyphenation;

//--- Set CapitalHyphenation
hyphenSettings.CapitalHyphenation = false;
```

vb.net

```
'--- Return CapitalHyphenation
Dim capitalHyphenation As Boolean = hyphenSettings.CapitalHyphenation

'--- Set CapitalHyphenation
hyphenSettings.CapitalHyphenation = False
```
