

CompatibilitySettings.AllowSnapInCells

Description

Sets or returns a boolean that represents whether or not Word will snap text to grid while in a table with inline objects in this document.

C#

```
public boolean AllowSnapInCells{ get; set; }
```

vb.net

```
Public Property AllowSnapInCells() As Boolean
```

Remarks

MS Word equivalent: Tools menu > Options... > Compatibility tab > Compatibility options for [filename].doc section > Options > Don't snap text to grid inside table with Inline objects

Examples

C#

```
//--- Return AllowSnapInCells
    bool allowSnapInCells = cs.AllowSnapInCells;

    //--- Set AllowSnapInCells
    cs.AllowSnapInCells = true;
```

vb.net

```
'--- Return AllowSnapInCells
    Dim allowSnapInCells As Boolean = cs.AllowSnapInCells

    '--- Set AllowSnapInCells
    cs.AllowSnapInCells = True
```
