

Slides.Item(Int)

Description

Returns the slide at the specified position. This property is an indexer for the [Slides](#) class.

C#

```
public Slide this[int position] { get; }
```

vb.net

```
Public Default ReadOnly Property Item(ByVal position As Integer) As Slide
```

Parameters

position

The 0-based position the worksheet to get.

Returns

The slide at the specified position.

Examples

C#

```
Slide Slid1 = Presentation.Slides[0];
```

vb.net

```
Dim Slid1 As Slide = Presentation.Slides(0)
```
