

ChartTextCollection.CreateChartText(String)

Description

Create a new [ChartText](#) object with the specified string as its text. The new object is automatically added to the [ChartTextCollection](#).

C#

```
public abstract ChartText CreateChartText(System.String text)
```

vb.net

```
Public MustOverride Function CreateChartText(ByVal text As String) As ChartText
```

Parameters

text

The text to display in the new `ChartText` object.

Returns

A new `ChartText` object.
