

DocumentProtection.SelectOnlyFormFields

Description

Sets or returns a boolean representing whether or not Word will only allow selections in form fields for this document.

C#

```
<p> public boolean SelectOnlyFormFields{ get; set; }</p>
```

vb.net

```
<p>Public Property SelectOnlyFormFields() As Boolean</p>
```

Examples

C#

```
//--- Get SelectOnlyFormFields
bool selectOnlyFormFields = docProtect.SelectOnlyFormFields;

//--- Set SelectOnlyFormFields
docProtect.SelectOnlyFormFields = true;
```

vb.net

```
'--- Get SelectOnlyFormFields
Dim selectOnlyFormFields As Boolean = docProtect.SelectOnlyFormFields

'--- Set SelectOnlyFormFields
docProtect.SelectOnlyFormFields = True
```
