

CompatibilitySettings.MapPrintColor

Description

Sets or returns a `boolean` that represents whether or not Word will print colors in this document as black on non-color printers.

C#

```
public boolean MapPrintColor{ get; set; }
```

vb.net

```
Public Property MapPrintColor() As Boolean
```

Remarks

MS Word equivalent: Tools menu > Options... > Compatibility tab > Compatibility options for [filename].doc section > Options > Print colors as black on noncolor printers

Examples

C#

```
//--- Return MapPrintColor
bool mapPrintColor = cs.MapPrintColor;

//--- Set MapPrintColor
cs.MapPrintColor = true;
```

vb.net

```
'--- Return MapPrintColor
Dim mapPrintColor As Boolean = cs.MapPrintColor

'--- Set MapPrintColor
cs.MapPrintColor = True
```
