Using the SoftArtisans License Manager

The SoftArtisans License Manager is a tool included in your OfficeWriter installation adds or removes OfficeWriter license keys from your machine. If you are manually installing OfficeWriter, or need to run different major versions on the same machine, License Manager is the easiest way to add License keys to the registry.

By default, License Manager is installed at C:\Program Files\SoftArtisans\OfficeWriter.

Add Keys

1. Open License Manager.

Softartisans License Manager	
New Key:	
	Add / Upgrade
Installed Keys:	
•	Remove
	Exit

Type the key into the New Key text box and click Add/Upgrade. If the key you are adding will replace a key currently in the registry you will receive a warning. For example, This warning will appear if you are installing an OfficeWriter key over pre-existing ExcelWriter, PowerPointWriter, and/or WordWriter license keys.

Changin	g OfficeWriter v9 key	×
4	The OfficeWriter EE Key "XXXXXX-XXXX-XXXX-XXXXX-XXXXX" will replace the PowerPointWriter EE Key "XXXXXX-XXXX-XXXXX-XXXXX ".	
	OK Cancel	

3. A pop up will let you know that the new key has been added to the registry.

Remove Keys

1. Open License Manager.

Softartisans License Manager	
New Key:	
	Add / Upgrade
Installed Keys:	
	Remove
	Exit

2. Click the arrow next to Installed Keys to see all the keys currently in your machine.

Softartisans License Manager	
New Key:	
	Add / Upgrade
Installed Keys:	
	Remove
ExcelWriter v8x for Windows PowerPointWriter v8x for Windows	
PowerPointWriter v9x for Windows	
Word Writer Vox for Windows	
	Exit

3. Select the key you want to remove and click Remove.

Softartisans License Manager	
New Key:	
	Add / Upgrade
Installed Keys:	
PowerPointWriter v8.x for Windows	Remove
Key: XXXXXX-XXXX-XXXXX Softartisans PowerPointWriter v8x for Windows Enterprise Edition Production Server	
	Exit

4. License Manager will prompt you before deleting the key. Click Yes and the key will be removed from the reistry.
