

Trendlines

Description

Trendlines is a collection of all **Trendline** objects associated with a data series in a chart. To return a **Trendlines** collection, use **Series.Trendlines**.

C#

```
[DefaultMember("Item")]  
public sealed class Trendlines : System.Collections.Generic.IEnumerable<Trendline>
```

vb.net

```
<DefaultMember("Item")> _  
Public NotInheritable Class Trendlines  
    Implements System.Collections.Generic.IEnumerable(Of Trendline)
```

Properties

Name	Description
