

PivotTableLayout

Introduced in build 9.1

Description

The `PivotTableLayout` class contains the set of properties specific to the layout of pivot tables. To get a `PivotTableLayout` object, use `PivotTable.PivotTableLayout`.

C#

```
public sealed class PivotTableLayout
```

vb.net

```
Public NotInheritable Class PivotTableLayout
```

Properties

Name	Description
<code>PivotTableLayout.ReportLayout</code>	Sets or returns the layout option for the pivot table.

Nested Classes

Name	Description
<code>PivotTableLayout.LayoutOptions</code>	The <code>LayoutOptions</code> are used to specify the value of <code>PivotTableLayout.ReportLayout</code> .
