

PageSetup.CenterHorizontally

Description

Sets or returns whether or not the data of the worksheet is centered horizontally within the margins. This is set to false by default.

(This is not supported for charts.)

C#

```
public boolean CenterHorizontally{ get; set; }
```

vb.net

```
Public Property CenterHorizontally() As Boolean
```

Examples

C#

```
//--- Get CenterHorizontally  
    bool centerHoriz = ps.CenterHorizontally  
  
    //--- Set CenterHorizontally  
    ps.CenterHorizontally = true;
```

vb.net

```
'--- Get CenterHorizontally  
    Dim centerHoriz As Boolean = ps.CenterHorizontally  
  
    '--- Set CenterHorizontally  
    ps.CenterHorizontally = True
```
