

Series.SettingsPieDoughnut

Description

Returns a [SettingsPieDoughnut](#) object representing the series properties unique to pie and doughnut charts.

C#

```
public SettingsPieDoughnut SettingsPieDoughnut{ get; }
```

vb.net

```
Public ReadOnly Property SettingsPieDoughnut() As SettingsPieDoughnut
```

Exceptions

SARuntimeException

Getting [SettingsPieDoughnut](#) from a series that is not a pie or doughnut series

Remarks

Modifying the return value will have no effect on the output if this is not a pie or doughnut series on save.
