

# Trendlines.GetEnumerator()

## Description

Returns an IEnumerator for the Trendlines in a Series

### C#

```
public IEnumerator GetEnumerator()
```

### vb.net

```
Public Function GetEnumerator As IEnumerator
```

## Returns

An enumerator for the Trendlines in a Series as a System.Collections.IEnumerator

## Examples

### C#

```
IEnumerator enumerator = series.Trendlines.GetEnumerator();
```

### vb.net

```
Dim enumerator as IEnumerator = series.Trendlines.GetEnumerator()
```
