

PivotTableSettings

Introduced in build 8.4

Description

The `PivotTableSettings` class contains the set of properties specific to pivot tables. To get a `PivotTableSettings` object, use `PivotTable.PivotTableSettings`.

C#

```
public sealed class PivotTableSettings
```

vb.net

```
Public NotInheritable Class PivotTableSettings
```

Properties

Name	Description
ClassicLayout	Sets or returns whether the PivotTable will display in classic layout mode
ValuesLabelOnRow	Sets or returns whether the values labels field should be placed as a Row Label or Column Label
EmptyValueCaption	Sets or returns the caption displayed in place of a empty cell.
FriendlyErrorCaption	Sets or returns the caption displayed in place of an error.
ItemsToRetain	The <code>ItemsToRetain</code> class represents the number of items a PivotTable cache will retain even changes have been made to the data source.
RefreshOnOpen	Sets or returns whether Microsoft Excel will automatically refresh a PivotTable and the PivotTable cache when Excel opens the document.
ShowEmptyValueCaption	Sets or returns whether Microsoft Excel will automatically show a caption in place of a empty cell.
ShowFriendlyErrorCaption	Sets or returns whether Microsoft Excel will automatically show a caption in place of an error.
