

CopyPasteProperties.CopyComments

Description

A boolean value indicating whether or not to copy comments. If this value is set to true, then any comments attached to cells in the copy area will be copied.

C#

```
public boolean CopyComments{ get; set; }
```

vb.net

```
Public Property CopyComments() As Boolean
```

Examples

C#

```
//--- Is the property object set to copy comments?  
    boolean willCopyComments = copyPasteProperties.CopyComments;  
  
    //--- Set the property object to copy cell values.  
    copyPasteProperties.CopyComments = true;
```

vb.net

```
'--- Is the property object set to copy comments?  
    Dim willCopyComments As Boolean = copyPasteProperties.CopyComments  
  
    '--- Set the property object to copy comments.  
    copyPasteProperties.CopyComments = True
```
